Are you working harder and longer than ever before, trying to keep up with an increasingly demanding workload? Most professionals are! You know the drill: You come in early, stay late, take work home, do two things at once — but your “to-do” list just keeps getting longer and longer!

Your calendar is jammed with commitments. Your workspace is shrinking because of the piles of paperwork you need to get to. You’re stressed out, frustrated and overwhelmed because you don’t see any end in sight to your growing workload.

Sound all too familiar? Then take heart! We’ve developed a practical new approach to organizing your time, a one-day workshop called **Time Management and Organization Skills for Busy Professionals**.

Get more done in fewer hours with a time management system YOU design! The trouble with traditional time management theories, we’ve found, is that they’re one-size-fits-all. No wonder they don’t work! That’s why the heart of this radically different program is a time management plan that YOU will design for yourself — allowing you to build in the flexibility you need to meet work and home commitments.

Learning Attribute

Participants will achieve maximum benefit from this course through a well-designed sequence of:

- Team activities
